

# PORT-A-WALL

Port-A-Wall can be easily assembled by one person in less than 5 minutes with the 3 simple steps shown below.

## Step 1:

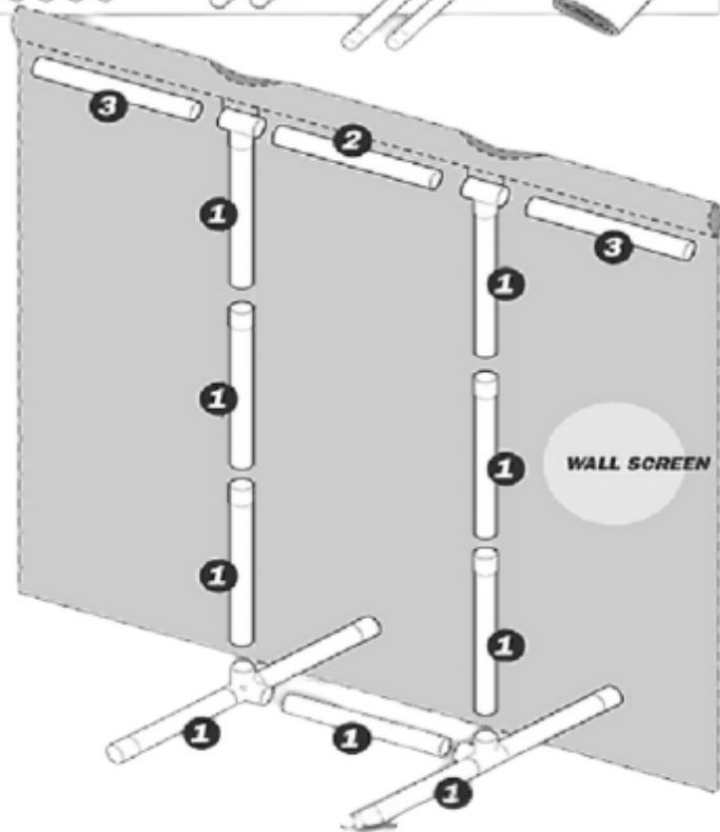

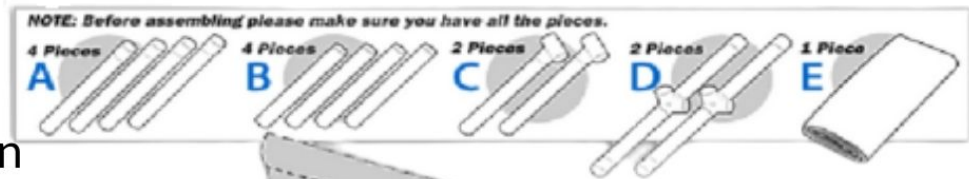

Install frame pieces as shown except for top pieces.

## Step 2:

Install through top center of wall screen before inserting in frame.

## Step 3:

Install side pieces through the outside edge of the wall screen before inserting them into the frame. (Opening is located about 1" below the top of the wall screen. Then lightly push pieces together as shown in the diagram to *THE RIGHT*.)

**\*TIP: Connect and twist to secure pole stability.**
