**REAL PEOPLE
REAL SUPPORT**

NO ROBOTS.
NO RUNAROUND.
JUST REAL HELP.

The simpleABI-Q rapid-test system is designed for busy practices that need a fast and efficient way to screen for Peripheral Artery Disease (PAD), even with limited time, staff, or financial resources. This innovative system utilizes PVR waveforms and a proprietary software algorithm to provide accurate PAD assessments in just 1-2 minutes, without the need for Doppler skills.

It's backed by the simpleABI 2-year warranty that **covers everything** from parts to labor, with no hidden fees or diagnostic charges.
