

# NEXT-GEN 12-LEAD EKG SYSTEM

FASTER. SMARTER.  
BETTER CARE.

Advanced EKG system delivering high-precision diagnostics, easy operation, stickerless lead technology, and seamless EMR integration.

## Enhanced Patient Comfort

- Revolutionary 12-lead electrode strap.
- Applies directly to skin—no adhesive stickers reduce risk of skin injury.
- Consistent lead placement ensures accurate read every time.
- Adjustable to fit all sizes and genders. Antibacterial, hypoallergenic, non-corrosive.

## Comprehensive Data Management

- Available with secure cloud storage and EMR integration options.
- Advanced software for fast historical EKG data comparison.
- Real-time data transmission via Text, Messenger or Email for immediate review by healthcare professionals.

## Lightweight and Portable

- Compact design allows for easy transport to any location.
- Available with medical cart for in-office and in-hospital use.
- Deploys rapidly in any patient care setting including emergency care.

## User-Friendly Interface

- Fast and easy to use.
- 80% faster than traditional EKG exam.
- One push EKG recording.
- Intuitive APP.
